Almost Unanimous.

Washington, April 2.—Chief among the measures passed by the house today was the so-called "personal liability" bill, which has been favored by the army of railway employes throughout the country and which practically had an unanimous report from the committee. Members of the house showed great interest in the measure, and had a division been called for the bill would have had an almost unanimous vote.

Another measure changing existing law which excited a filibustering opposition was the bill permitting the fortification of sweet wines and levying a tax of 3 cents a gallon on all wines thus fortified. A number of bills were passed under suspension of the rules.

Future Is Bright.

"We are in the midst of one of the most democratic periods of American history, the period in which the people's rights are to be defined and observed as they never been before. There are some who see danger to our institutions in the agitations resulting from the exposures in official and business life. I do not share this view. To my mind, the hope for the perpetuity of this government by the fact that this awakening has come at a time of unusual prosperity shows that it does not proceed from a spirit of discontent, but springs from the moral sense of the people. It is simply a determination to stamp out the things that dishonor in public life and the things that dishonor in public life—a firm resolve that the government shall be representative of the good, not of the bad.

"The energies of this public conscience have been extended from the domain of the public wrongdoer to that of the private wrongdoer, and probing into the carryings-on of grafters of every kind. It is not insurance companies the people complain of, but abuses of trust on the part of some of those running the insurance companies; the people understand these things and know that while some insurance people and some bankers are crooked, just as some officials are crooked, it does not follow that all insurance men or all bankers and officials are of the Famous Cruiser.

Democrats of prominence from all parts of the state attended, and the gathering was one of the most notable ever held in the state under the auspices of this party. The banquet was presided by an informal meeting of the members of the Democratic state central committee but it was decided to take no action until after the Republican state convention.

Governor Folk, responding to the subject, "Good Government," spoke in part as follows:

Three Propositions.

The propositions to be voted for tomorrow are as follows:
First—Shall the city of Chicago proceed
to operate street railways.
Second—Shall an ordinance passed by
the city councit of Chicago, providing for
the issue of street railway certificates in
an amount not to exceed \$75,000,000, the
money to be used for the purchase of the
existing street railway companies, be approved? Third—Shall the city council proceed without delay to acquire municipal ownership and operation of all street railways in Chicago instead of granting franchises to private companies? The first proposition must receive 60 per cent of all votes cast in order to become binding. A majority carries the other two.

High License Contest.

In account to the contest on municipal ownership the question of whether saloon licenses shall be \$500 or \$1,000 per annum. will be up for final settlement. The numerous crimes against women committed in this city of late caused a widespread belief that they were indirectly the result of many saloons which existed under a low license, but which would be wiped out if the amount was placed at \$1.000. The city council after a sharp fight passed an ordinance making the license \$1.000. The liquor interests have made a strong fight against every alderman up for re-election who voted for the ordinance. If a majority of these men are returned to the council the \$1.000 license is expected to remain; otherwise it is believed the ordinance will be repealed and the old figure of \$500 restored.

London, April 2.—The announcement of the execution of Natal natives was reactived with angry cries of "Shame" from the Irish Nationalist and Labor benches, and from some Liberals, in the house of commons this afternoon. One ministerialist amid cheers and some protests, described the executions as blood thirsty murder, and James Ramsey MacDonald, secretary to the labor representatives' committee, promptly moved an adjournment of the house to discuss the manner in which martial law was being applied in Natal and "to the imminent and great danger to which the native subjects of the crown are involved in its administration."

The debate on Mr. MacDonald's motion occupied the evening session of the house of commons, but no new features were developed.
